Microbiological Lab Services

Stay compliant and ensure operating safety with Apex's in-house lab services

Product public health and your reputation.

Lab Services

OVERVIEW

Our ISO 17025 – accredited microbiology laboratory specializes in the detection of biological contaminants in water. Through rigorous and comprehensive analysis, we accurately identify harmful microorganisms to support your compliance with health and safety standards – efficiently and cost-effectively.

LAB TESTING PACKAGES

Apex offers a wide variety of lab testing packages, and this portfolio is constantly growing. These packages include:

- *Acinetobacter spp.*
- *Aeromonas hydrophila*
- *Anaerobic Plate Count*
- *Burkholderia cepacia*
- CMS panel (*Burkholderia*, *Stenotrophomonas*, *Acinetobacter Pseudomonas*, NTM, fungi)
- Denitrifying Bacteria
- Endotoxin
- *Escherichia coli* (culture + Colilert)
- Fungi (yeasts and molds)
- HPC (culture & SIMPlate)
- Iron-Related Bacteria
- *Legionella* (culture + vPCR, potable/non-potable, next/same day)
- Nitrifying Bacteria
- NTM (rapid/slow)
- *Pseudomonas aeruginosa*
- *Serratia marcescens*
- *Stenotrophomonas spp.*
- Sulfate Reducing Bacteria
- Slime Forming Bacteria
- Speciation of NTM and *Legionella*
- Total Coliforms (culture + Colilert)

Apex Advantages

Certified Excellence

- ISO 17025 (Microbiology Lab)
- CDC ELITE Program
- NY ELAP Lab #12098
- Indiana Drinking Water Certified

Regulatory Compliance

We follow ISO 17025 standards and approved methods to ensure every test meets strict local, state, and federal standards.

Simplified Reporting

Our simplified reports make complex data easy to interpret.

Flexible Services

Solutions for complex water systems and specialized demands.

Expert Lab Analysts

Our lab analysts:

- Hold degrees in Biology, Chemistry, or Life Sciences
- Follow SOPs and certified methods
- Maintain lab systems and inventory
- Accurately report data in LIMS
- Are cross functionally trained

WHAT ARE CUSTOMERS SAYING?

I can't say enough good things about Team Apex.

They are very important to the operations of our facilities. Darci and Will provide strategic, forward- looking water management solutions.

An absolute phenomenal team to work with.

I have the utmost respect for the team's expertise and professionalism. A great group to work with and always appreciate the support and guidance.

RELIABLE AND AFFORDABLE LAB SERVICES

Fast, cost effective testing solutions tailored to your needs, backed by international and federal certifications.
